Note: To comply with the Clean Air Act Amendments of 1990, IDEM was required by EPA to act by December 31, 2000, upon all the approximately 750 Title V permit applications which it received prior to June 30, 1999. While the majority of Title V permit decisions were issued by the December 31, 2000 deadline, a number of the more complex application reviews are still pending. According to EPA, as of November 2002, Indiana (nationally, a leader among industrial states in its processing of TV applications) has issued permits for 83 percent of the applications it received, while Michigan, the next most productive state in EPA Region V, has issued permits for 81 percent of its Title V applications.
